The division of work:

1. Project Manager (PM)

- Create a project board and manage a timeline.
- Hold stand-ups and coordinate merges/releases.
- Prepare the final presentation and demo script.
- Assist QA in acceptance criteria.

2. Frontend Developer A (Public pages)

• Build responsive templates for: Home, About, Events list, Event details, Gallery, Contact.

• Implement navigation header + footer + mobile menu. • Implement event cards, gallery grid, and contact form UI. • Connect contact form POST to backend endpoint (use fetch).

3. Frontend Developer B (Admin UI + Member UI)

• Design the user interface

• Build admin dashboard layout (events list, create event form, gallery manager, messages).

• Implement admin event forms (create/edit/delete) with client validation.

• Implement member login & simple profile page.

• Work with Frontend A on shared components (navbar, modals).

4. Backend Developer A (Auth & Events)

• Implement auth (admin login; sessions).

• API endpoints for events: GET /events, GET /events/:id, POST /events, PUT /events/:id, DELETE /events/:id.

• Server-side validation and error handling.

5. Backend Developer B ()

• Implement file upload endpoint for gallery images and image storage.

• Ensure nested endpoints for event images if needed.

6. Database Administrator

• Design DB schema and implement migrations.

• Implementation of the Data Management Functions • Provide DB Security and Access Control.

• Integration with the Application.

7. Tester /Data Collection & Marketing / DevOps

• Create a test plan and run manual tests across features and devices.

• Prepare deployment steps and deploy to chosen hosting. • Write a usage guide.

• Creates feedback that allows improvement by using monitoring and user feedback to inform future development.

Who will decide who does what?

1. Mariam Ahmed (PM | front-end Dev. A)
2. Eman Gaber (front-end Dev. B)
3. Renada Ahmed (back-end Dev. A)
4. Ahmed Saad (back-end Dev. B)
5. Mohamed Abo ELhaggag (Database Administrator)
6. Mostafa Mahmoud (Tester | Data collector | Marketing)

Who will review the submission?

The project manager and the team members discuss and review documents before submission.
